

Intended Use

- For a high build re- and new lacquering, to seal a repair.
- To be used on wood, plastic and metal surfaces.
- For indoor and outdoor use.

Characteristics

- Acrylic-based product.
- A transparent lacquer.
- Silicone-free.
- Sheen levels: deep matt 3-4, matt 10-13, silk matt 19-21, silk gloss 35-40, gloss 55-65, high gloss >75.
- Lightfast and weather resistant.
- Limited PVC-resistance (door and window gaskets).
- Good resistance and adhesion properties.

Application Notes

Shake can well before use and briefly spray valve free. Test product on an inconspicuous area first to ensure adhesion and compatibility with the surface. Spray distance approx. 30-40 cm. Surface must be clean and free of dust and grease. Pre-treat, if necessary (sand lightly and remove sanding dust). Take care not to apply too heavy coats.

When sealing the repaired area with touch-up paints, the repair will turn brighter for a short time. On drying, original colour reappears.

In case of vertical surfaces, several thin coats are best. Allow lacquer to dry for approx. 20 minutes before applying the next coat.
